VIETNAM

World's Natural Heritage by UNESCO

Vietnam is an intriguing destination. At the crossroads of tradition and modernity, an eclectic mix of old and new, this country will reveal astonishing finds to every type of traveler. The old world charm is still retained amid the French colonial architectures, wide tree-lined boulevards gracing the cities and former imperial capitals. History buffs can learn about Vietnam's recent hard fought wars in the museums. Culture seekers will delight in the discovery of the diverse landscapes and everyday sights, from bustling floating markets, lush paddy fields to colorful hill tribes in the highlands.

Vietnam is located in both a tropical and a temperate zone. It is characterized by strong monsoon influences, but has a considerable amount of sun, a high rate of rainfall, and high humidity. Regions located near the tropics and in the mountainous regions are endowed with a temperate climate.
