Address Montgomerie Dubai

The Address Montgomerie Dubai has progressed into one of the Middle East's most lavish and desired golfing destinations recently. The main reason for its success has always remained dependent upon the superb quality of the golf course.

The Address Montgomerie Dubai's championship golf course was designed by Colin Montgomerie in association with Desmond Muirhead. The course covers 265 acres which consist of 123 acres of turf, 49 acres of man-made lakes (a total of 14 lakes), and 93 acres of landscaped gardens and is scattered with 81 large bunkers.

The course gives player the undulating "links land" style fairways with generous landing areas which test and excites player across different levels. Despite having a huge area, the greens can be quite misleading as they are above 9.5feet. Contours throughout the greens can result in very annoying putts.

The signature hole, is the par 5 fourth, known as the Snake hole for its saddleback fairway which doglegs towards the green, with 2 bunkers behind forming the eyes of the snake. Another hole, the par 5 ninth, with water down the left, is a harsh finish to the introductory half. The par 3 thirteenth, a hole designed in the shape of the UAE, claims a 360 degree teeing area around an island fairway and green.

The Address Montgomerie Dubai holds two very different seasons of golf. During winter, the golf course is over-seeded whilst the summer season has the course back to a full stand of Bermuda grass. The grass growth is strong during the summer causing in a very difficult rough.
