This 18-hole championship course spans across 6,308 meters with a par of 72, features strategically placed bunkers and water hazards designed to challenge even the most seasoned player. It is one of the most beautiful and luxurious golf courses in Batam, designed by Japanese architect Hisamitsu Ohnishi, who is renowned for designing world-class golf courses in Japan. Reservoirs and natural streams flow across many of the holes into lakes and ponds adjacent to the fairways. Numerous holes along the coastline allow the golfers to enjoy the sea breeze and capture breathtaking views of Singapore's spectacular skyline and the picturesque city of Nagoya. The front nine plays through more elevated land, while the back nine is flatter, with the two best holes being hole #8 and hole #9. After golf, proceed to Batam city for hotel check-in.

Day 2 Batam

(Breakfast)

Be excited to play 18 holes golf at **Batam Hills Golf Resort**. As one of the best golf courses in Batam, Australian designer Max Wexler designed this place with a variety of hole designs and undulating fairways, which make for a real golfer's delight. With 18 holes 72 par playing to 6,225 meters, this championship course consists of two distinct 9-hole loops. The front nine weaves through the jungle with undulating and tree-lined fairways, while the back nine is more open, less hilly and is surrounded by wide fairways. Featuring Tifdwarf Bermuda grass, undulating fairways, water hazards and strategically placed bunkers, Batam Hills provides challenges to golfers of all skill levels. The par 3 hole #4 is the signature hole which plays 140 meters, requires an accurate tee shot to a well-guarded green.

Day 3 Departure from Batam
